

## *Introduction*

*CSE 1400 Applied Discrete Mathematics*

*Spring 2013*

The purpose of this exercise is to test if you know the major topics in this course. The purpose is not to test if you can name them all, but to test if you can give a high-level overview of each topic when asked. Only you can be responsible for retaining this information.

1. Give short description of each topic that you will learn about in this class.
