

INTERACTIVE LECTURE

(BRING YOUR SMART PHONE)

Cryptography: A Closer Look at Protecting Digital Secrets

Friday, January 15, 2016, 7-8pm

Room 118, Olin Engineering Building, FIT

More info: <http://www.cs.fit.edu/~pkc/dept/crypto/>

The proliferation of mobile electronic devices such as smart phones, tablets, and laptops has dramatically increased the collection and communication of digital information. Some of these data are expected to be private among the intended audiences. Cryptography studies how to protect private data from unintended audiences. In this lecture, we will take closer look at cryptography and you will experience the challenges in an interactive demo using your smart phone.

Free and open to the public
