

Apple's Siri: A Closer Look

Friday, January 18, 2013, 7-8pm
Room 118, Olin Engineering Complex, FIT
More info: <http://www.cs.fit.edu/~pkc/dept/siri/>

Speakers from the Department of Computer Science at Florida Tech will describe some of the algorithms that make Apple's Siri work.

The Siri software is designed to act like a digital personal assistant. It is a great example of software that can accomplish remarkable, human-like tasks and make life easier.

Free and open to the public
Sponsored by the Department of Computer Sciences
